Statement on the RoHS 2 Directive

The new RoHS Directive 2011/65/EU (RoHS 2) became effective on 3 January 2013.

RoHS 2 deals with the same hazardous substances and the same maximum concentration limits as Directive 2002/95/EC (RoHS 1).

Therefore,

all products meeting the substance restrictions of RoHS 1 should remain compliant to the substance restrictions of RoHS 2.

The scope of RoHS 2 expanded to phase in the previously excluded categories of medical devices and monitoring & control instruments, as well as certain cables.

In addition, RoHS 2, for finished EEE1, requires the use of the CE mark to demonstrate compliance with the Directive.

Access IS has, to ensure compliance to the RoHS 2 requirements for documented evidence, requested RoHS compliance statements from all our suppliers.

We can now confirm that all the products we supply meet the Directive 2011/65/EU, RoHS 2

Yours Sincerely

Guy-Franck Nakach

Managing Director
