Access-IS is at the forefront of innovative technology designed to accurately capture and transfer information into electronic systems, specializing in image processing, RFID/NFC and barcode reading.

**PRODUCT SHOWCASE**

**ATOM® eMRTD Reader**

ATOM® is a state-of-the-art eMRTD reader that enables the capture of multiple high-resolution, uncompressed images (visible, IR & UV) and, in comparison to existing scanners, significantly reduced transaction times.

The ATOM allows for both desktop use and simple, elegant integration into countertops and kiosks.

The optional ATOM® Expansion Dock offers the ability to seamlessly read contact smart cards and/or magnetic stripe cards.

**ATOM® Applications**

- Hotels, Airports, Car Rental, Gaming & Casinos
- Banking, MNOs, Tax Refunds & Money Exchange
- Border Control & Law Enforcement
- Document & Visa Issuance
- Self-service Applications & Kiosks

ADR100
OEM Photo ID Reader

The ADR100 is designed for self-service kiosk use under all lighting and weather conditions. It captures a full-colour image of credit card sized documents together with a UV images. It reads most 1D/2D barcodes, and AAMVA compliant PDF417 barcodes.

- Document verification & authentication
- Car rental, gaming & financial kiosks (KYC & AML)

OCR601-MK2
Flatbed MRTD Reader

The OCR601-MK2 is a robust, high-performance flatbed MRTD reader with contactless capability. The reader decodes the MRZ and processes RFID data conforming to ICAO Doc. 9303 LDS 1.7 standards, including BAC, PA, AA, EAC, PACE and SAC.

- Document issuance & biometric enrolment
- Access control (KYC & AML)
- Self-service check-in & kiosks

OCR315e OCR Reader / OCR316e OCR & MSR

The OCR315e OCR Reader & OCR316e with MSR are compact USB devices that deliver fast, accurate bidirectional reading at low cost. Reads machine-readable passports, visas, US and international resident permits and national ID cards.

- Election & biometric enrolment
- Gaming & tax-refund (AML)
- Hotel check-in and MNOs (KYC)

OCR310e
OEM OCR Reading Engine

This fourth generation OCR310e Miniature OEM OCR Reading Engine combines ultra-compact size and low-power consumption. It is designed for easy integration into third-party handhelds and tablets used as portable identification verification devices.

- Border control and immigration
- Biometric enrolment
- Election and voter registration

TripTick®
Multi-Technology Reader

TripTick offers a small, single device and point of presentation for all ticketing technologies. It reads traditional & home-printed boarding passes, cEMV bank and credit cards and mobile payments, NFC phones, as well as barcodes on phones, wearables and paper.

- Low profile: Only 36.9mm high
- IP67 sealed front face, for integration into kiosks and gates
