

Thank You for purchasing the Access-IS OCR640e

The accredited passport reader for Hajj & Umrah

Your Hajj/Umrah passport reader package includes: OCR640e reader, dedicated cable & AC/DC power adaptor

How to install and test the OCR640e for Hajj and Umrah

1. Download ASPS from the following link http://downloads.access-is.com/ASPS/ASPS_Installation.zip
2. Reboot the computer as requested by the installer.
3. Double click to install the "HAJJ and UMRHAH OCR settings.reg" file located in the "Installation.zip"
4. Connect the OCR640e Cable to the AC/DC Adaptor
5. Connect the OCR640e Cable to your PC using the USB connector
6. Connect the AC/DC Adaptor to your local power supply with an appropriate AC mains cable
7. Turn on the OCR640e using the switch at the back
8. When the LED lights on the OCR640e turn blue, the reader is ready to use
9. Run "Notepad" and scan a document

How to install and test the OCR640e for other applications

1. Download this ADRS software from the Access website by following the link below and selecting ADRS software from the listed options - www.access-is.com/gettingstarted/gs_id_document_readers.php
2. Connect the OCR640e Reader to the OCR640e Cable
3. Connect the OCR640e Cable to the AC/DC Adaptor
4. Connect the OCR640e Cable to your PC using the USB connector
5. Connect the AC/DC Adaptor to your local power supply with an appropriate AC mains cable
6. Turn on the OCR640e using the switch at the back
7. All the LEDs on the device should come on
8. When the LED lights on the OCR640e turn blue, the reader is ready to use

Access-IS OCR640e - Hajj & Umrah Reader

Access Document Reader Software

Note: This device is not plug-and-play. It must be configured to 'talk' with the Hajj Ministry's database when it is made available to Hajj and Umrah tour operators and agents in mid-August 2014.

This is a relatively simple programming task that can be completed using the Access download files provided (below), or by using third-party commercially available software. We can put you in touch with our software partners.

Included with the ADRS application

1. Programmer's Guide
2. API Documentation
3. ADRS (Access Document Reader Software) – OCR640e demonstration application
4. VideoOCR.dll file – OCR interface functions
5. VideoOCR.lib file – Proxy for all the functions exported by the DLL file
6. VideoOCR.h file – Include file that contains the function signatures and structures
7. Data folder – Directory that holds the face detection training data
8. OCR C# DEMO – Directory that holds a C# Demonstration example
9. OCR C++ DEMO – Directory that holds a C++ Demonstration example.
